

Civil Engineering Graduate Seminar Series
Spring 2021 Semester
Faculty Coordinator: Dr. Parth Panchmatia
Student Coordinator: Arash S.R. Olia, PhD Student

All seminars will be held online (unless noted otherwise). The speaker must submit an abstract to Trisha Brown (gradce@ksu.edu) by Friday prior to the scheduled date. Each on-campus student must obtain at least 10 seminar credits to fulfill the requirements for CE 890.

Jan. 27	“Welcome to Spring 2021” CE faculty and staff instructions. Graduate student introduction
Feb. 3	Dr. Rasheed presentation
Feb. 10	K-state libirian
Feb. 17	Cristopher Chiu: Recovery of Dissolved methane from anaerobically Treated Wastewater Using Hollowed Fiber Membrane.
Feb. 24	Final exam Derek Hrubes: Alaskan Heap Leach Pad Design
Mar. 3	Dr. Dissanayake; Associate Dean of the Graduate School Presenting for CE graduate students
Mar. 10	Xingdong Wu: Mechanistic-Empirical Design of Chemical Stabilized Full-Depth Reclaimed Pavement
Mar. 17	Evan Heronemus: Tailored phosphorus recovery as calcium product from highly concentrated swine wastewater treated through Anaerobic Membrane Bioreactor (AnMBR)
Mar. 24	Abdulaziz Alshehri: Analysis of Risk Factors Associated with Fatal Intersection Crashes Involving Older Drivers in the Midwestern Region
Mar. 31	Poornima Patil: Reducing Uncertainties in Nanoindentation Experiments for Cementitious Materials
Apr. 7	Khalid Al Shboul: Flexural Debonding in All-Lightweight RC T-Beams Strengthened with FRP
Apr. 14	Subodh Mhamankar: Dependency of Creep Properties of Concrete on Applied Stress-State
Apr. 21	Trevor Young: V-Wrap Shear Connectors Embedded in Precast Concrete Slabs
Apr. 28	Department gathering
